👤 Profile

I am a college student pursuing a B-Tech in Computer Science and Engineering. I am searching for an opportunity to work in a firm where I can use my abilities and knowledge to help the organisation grow by providing an enthusiastic attitude and an assortment of powerful skills. I'm fully committed to offering my knowledge and experience to assist with the company's mission.

💻 Activities & Projects

Portfolio, *Webpage made using React, HTML & CSS* ✍
<https://cs7dev.github.io/>

I designed and developed a personal website showcasing my skills and achievements. The website includes information about my education, work experience, and projects, as well as my resume and contact information. Its responsive design allows for seamless viewing on multiple devices, and its clean and user-friendly interface provides a professional and engaging experience for visitors.

Football Hercules, *React, HTML & CSS* ✍
<https://footballhercules.netlify.app/>

I develop and manage this website dedicated to providing up-to-date insights on the latest football news, including transfer rumours and other related information.

Ritu Weather Web/App, *Flutter, Dart, Java/Kotlin* ✍
ऋतु is an app designed for delivering real-time updates on weather conditions and provides users with customized flash briefings to keep them informed on the latest news and events.
